I just spoke with Paul Esparza- Andalon and sent him and Blanca Jimenez a confirming e-mail. Paul will seek approval to get me the contact information for the FHA representative. As you may know, BOE and Caltrans have been under the belief no agreement was necessary; but with FHA saying otherwise, we'll be pleased to get it done. Once we speak with FHA, we'll have a better idea of what form and content for the agreement is needed. The agreement need not slow down BOE's progress on the project.

We'll keep you posted. Thanks. Dave M.

Gentlemen,

I've just been informed that Mr. Michealson has some clarifying information for you two relative to the need for an MOU. I've copied him on this message so he can share with us our next steps.
